Webinars and face-to-face training

COVID-19 update: Due to current health and safety concerns around COVID-19, we have suspended our face-to-face training program. When the environment becomes safer we will provide updates. The public webinars are listed below.

We offer free child safe training sessions for people working or volunteering in child-related organisations in NSW. The sessions will provide you with the skills and resources to help you establish more effective ways to manage risk and focus on creating safe environments for children and young people.

[Watch previous webinars and training videos.](#)

Topics include meeting your obligations under the Working With

Children Check and implementing the Child Safe Standards. Our workshops and webinars are free but registration is essential.

To host your own session, please complete our [training request form](#). You can also consider attending one of the public sessions listed below. Please select your preferred session to reserve your place now.
